

Unshadowed = shadowed radiance

$$d(w_1) = \max(0, \cos(N, w_1))$$

$$d(w_2) = \max(0, \cos(N, w_2))$$

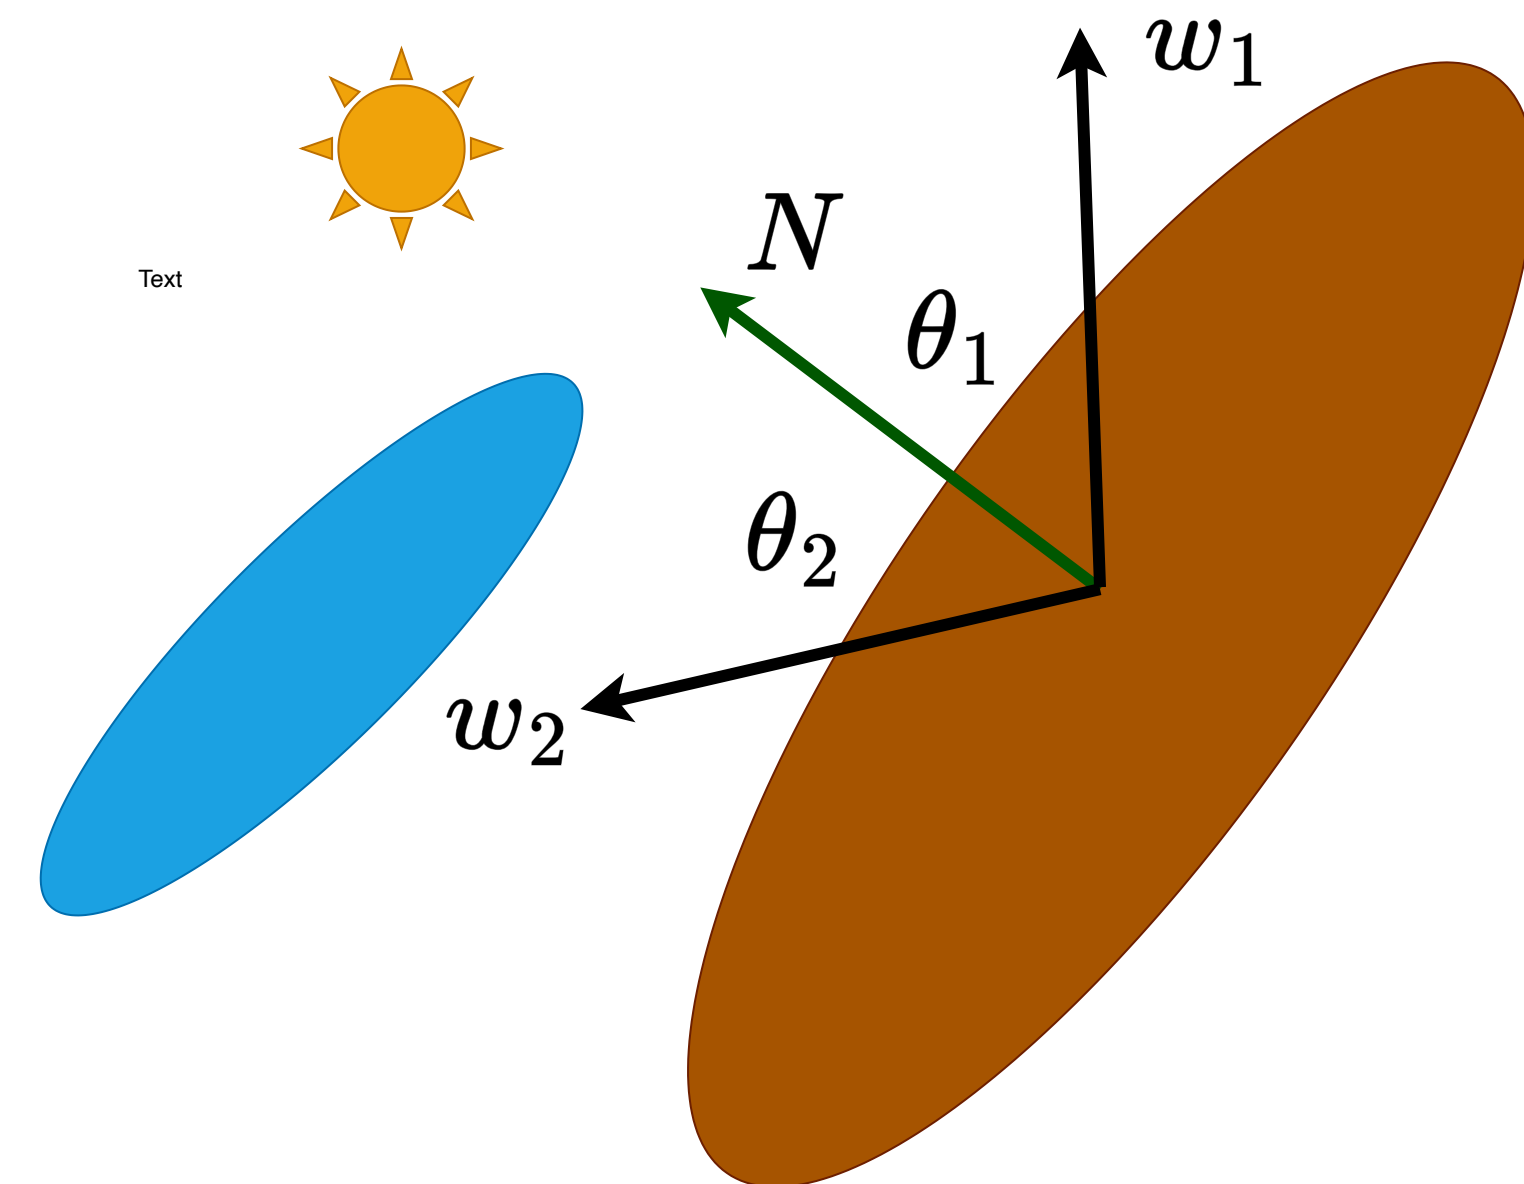

Unshadowed radiance transfer
does not incorporate light blocker

$$d(w_1) = \max(0, \cos(N, w_1))$$

$$d(w_2) = \max(0, \cos(N, w_2))$$

Shadowed radiance transfer
incorporates light blocker

$$d(w_1) = \max(0, \cos(N, w_1))$$

$$d(w_2) < \max(0, \cos(N, w_2))$$
